TGBS Masterclass
Decodes Global Markets

Thakur Global Business School (TGBS) hosted Mr. Aniket Bhor, Director at Drazatad Singapore and Director of Operations at Drazatad Oman, for a masterclass on 'Fixed Income Global Macro-economics.' on 17th August 2026.

Mr. Bhor began by recommending two essential reads for finance students: One Up on Wall Street by Peter Lynch and John Rothchild, and The Intelligent Investor by Benjamin Graham. He then moved to current markets, discussing the rise in gold prices and citing increased buying by American banks from London vaults as a factor behind the movement.

Using a TradingView chart tracking the 10-year yield on US government bonds, he explained how yields interact with inflation, interest rates and the economy. A positive yield curve may reflect higher inflation and interest rates, while an inverted yield curve may signal recessionary concerns or potential rate cuts. He also highlighted the inverse relationship between bond prices and yields, showing how changing macroeconomic expectations affect fixed-income markets.

The discussion further covered hard and soft landings as contrasting approaches to controlling inflation. He concluded by encouraging students to track gold, the Dollar Index and US government bond 10-year yields for insights into inflation, interest-rate expectations and the direction of global markets.

TGBS Masterclass:

JoStar's Vivek Shah

Decodes the Digital & AI Landscape

On 16 July 2026, students of the PGDM Batch 2026-28 at Thakur Global Business School (TGBS) participated in an insightful masterclass on 'Orienting Our Minds in the World of Digital & AI' led by Mr. Vivek Shah, Vice President - AdTech at JoStar. The session gave us a practical understanding of how technology, digital platforms, and artificial intelligence are reshaping modern businesses.

Moving beyond textbook definitions, the masterclass took us into the world of AdTech and digital infrastructure, helping us understand how large digital ecosystems create and capture business value while keeping user experience at the centre. Mr. Shah explored key aspects of the digital marketing and customisation, measurement, and monetisation, and feedback loops, cost effectiveness, scalability, and data-driven decision-making. These concepts helped us understand how businesses can move beyond simply reaching large audiences to creating meaningful and measurable user impact. One of the most interesting parts of the session was the discussion around digital bidding dynamics. Using Google's secondary pricing mechanism as a case study, Mr. Shah explained how algorithmic bidding can help balance competition in digital auctions with effective budget optimisation. For us, the masterclass offered a valuable perspective on the intersection of technology, business, and AI. More importantly, it encouraged us to look at AdTech not merely as a technical function, but as a scalable, strategic, and value-driven business ecosystem—a perspective that will be increasingly relevant as we prepare for the evolving corporate world.
